Conclusion

LiT Hackathon

LiT Hackathon

Participants' Task

- Create and design a one-page website using HTML, CSS, and JS taught in previous workshop days

Additional Information

- All details mentioned here will be sent to you as a PDF and can also be found on our LiT website <https://nyp-lit.github.io/>
- If you have any issues, reach out to us on discord by either sending a message in the hackathon chat or to one of our executive committee members

Hackathon Rules

Any participants found in violation of the rules
will be automatically disqualified

Hackathon Rules

Eligibility

- Open to NYP students of all ages
- Register for the event and join our LiT discord server

Project Development

- Most work should be done during the hackathon, but you may brainstorm or create wireframes beforehand
- You are allowed to reuse codes from previous projects however, recycling an entire/majority of previous projects is not allowed
- No plagiarism. Remember to credit your sources
- Any coding software are allowed as long as the programming language used is HTML, CSS, and JavaScript

Hackathon Rules

Participants' Code Of Conduct

- We do not tolerate harassment of hackathon participants in any form
- LiT is dedicated to providing a harassment-free event for everyone, regardless of gender, age, sexual orientation, disability, physical appearance, race, ethnicity, nationality, religion, or coding experience level (or lack of the aforementioned)
- You may not code anything that violates the code of conduct
- For example, racially insensitive content in a website will be automatically disqualified

Judging Criteria

Judging Criteria

Completion

- How complete is your website? Any broken components in your website?

Technicality

- How complex is the project in terms of advanced Javascript and advanced CSS?

Design

- Is your website visually appealing? How well does your website come together?

Creativity

- Is your website unique? Were there additional features added that were not taught in the workshops?

Submission Details

Submission Details

Project Submission

- Upload your website to GitHub as taught during day 4's workshop and paste your website's link into the submission form
- You will also be required to fill up a short description of your website in the submission form
- All projects should be submitted before judging commences on Sunday 6 March 2022 at 12pm
- If you encounter any submission issues, inform a committee member before the deadline
- Failure to submit before the deadline will result in disqualification

Q&A Session
